

Education

University of Waterloo

Sept '22 - Apr '27

- Honours Global Business and Digital Arts, Co-op

Projects

Project Lead

UW CUBE

Present

- Led iterative design cycles across a four-sprint AliExpress redesign, running 30+ usability tests to design a seller verification system that raised task success rate from 50% to 80%.
- Managed project scope, milestones, and task delegation within an Agile framework, keeping the redesign on schedule across four sprints and reducing handoff bottlenecks between research and design.
- Conducted outreach to international vendors on AliExpress to validate platform features and gather early-stage feedback, shaping the redesign's focus on trust and transparency.

Interaction Designer

Socratica

Present

- Designed the information architecture and interactions for Socratica's Toolbox, a resource hub built to help hosts run co-working sessions reaching a network of 1,700+ attendees and 420+ projects worldwide.
- Partnered with backend engineers to map 5 user workflows to API capabilities, ensuring 12 interactions stayed technically feasible.
- Ran usability tests on prototyped navigation flows across 5 user paths, reducing task completion time by 18% and navigation errors by 27%.

Experience

Media intern

Discount Pool Supply

May 2025 - July 2025

- Identified underperforming ad formats from engagement data and rebuilt the creative approach using motion graphics, animation, and videography, driving \$22K in incremental revenue at 16x ROAS.
- Built a short-form video strategy across three platforms, scaling output to 90+ pieces in 3 months and generating 20,000+ views with consistent daily engagement.
- Analyzed platform algorithm performance and adjusted content format and posting cadence, driving steady growth in impressions and engagement.

Marketing Coordinator

UW Environment Faculty

Sept 2024 - Dec 2024

- Attracted 10,000+ prospective students through targeted social media series highlighting the Faculty of Environment.
- Increased overall website traffic by 22.49% through strategic redesign of faculty websites in Waterloo's content management system.
- Coordinated schedules for 40 Environment Faculty ambassadors, ensuring seamless outreach events and campus tours.

Skills

Design

- UX/UI Design, Interaction Design, Prototyping, User Research, Usability Testing, Persona Development, Motion Graphics & Animation, Front-End Development.

Tools

- Claude Code, V0, Codex, Figma, Jira, Azure develops, Adobe Creative Suite (Photoshop, Illustrator, After Effects), Obsidian, Airtable, Miro, Google Analytics.

Strategy

- Design Thinking, Analytical Thinking, Stakeholder Management, Cross-functional Collaboration, Agile & Scrum Methodologies.
